BELL SET

This bell set is an easy way to assemble round sleigh bells on straps for wearing on the ankles.

MATERIALS NEEDED:

- 10 sleigh bells
- Two pieces of 8" strap leather 1 ½ inch wide
- Two pieces of latigo lacing (thong)

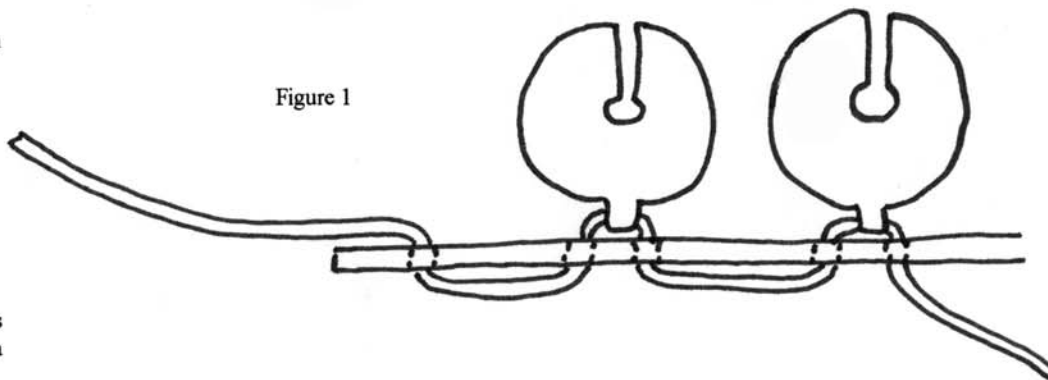

You will need a leather punch for this project.

Punch holes of 1/8 inch holes in the strap leather pieces according to the template shown below. If you don't have a leather punch, an electric drill will also work.

As in Figure 1, begin lacing the thong through the strap leather starting through the top of the first hole. Lace each bell in place and end by coming up through the last hole. Pull all of the lacing tight. Complete both straps this way.

When tying these bells on your ankles, it works best to use a square knot.
